

START YOUR VERY OWN STARFLEET CHAPTER

SIMPLE, REWARDING,
MOST OF ALL... IT'S FUN!

WWW.SFI.ORG

NEW CHAPTERS FORMING NOW!

Starting a chapter in STARFLEET is fun and rewarding! Chapters are based on fictional starships and space stations. Your members comprise the ship's crew.

STARFLEET is the fan organization with something for everyone. Members the world over are united in appreciation of the human adventure of STAR TREK. Hundreds of chapters spread around the planet link members into local fandom and the central organization.

ShOC is an acronym for *Shuttle Operations Command*. This division of **STARFLEET** is there to help new groups grow and develop into full fledged chapters. The ShOC Staff are there to help you with ideas on recruiting and other aspects of getting a new group off the ground.

EFCP is an acronym for *Existing Fan Club Program* and is designed for groups that already exist, but are not a part of **STARFLEET**. They come in under the ShOC division, but can progress much quicker when they qualify to become a full chapter.

SHUTTLES are chapters in training of **STARFLEET**: The International Star Trek Fan Association Inc. These groups are in the process of going through the shuttle program. These shuttles can hold meetings, sponsor events, support charities and the like. Some Shuttles choose to hold gaming sessions or write fan fiction.

CORRESPONDENCE groups mainly operate through mail correspondence, either through the postal service or by way of emails. The members can write articles, do webpages or graphics to benefit the group and those are just a few of the many things that can be done.

MEETING Chapters usually have regular club meetings and activities and get involved with their community on a face-to-face basis.
